Preamble

The Muslim extremists, Groups think mobs and Tribes, Women, Blacks, Chinese, religious zealots, binary extremists, weak minded men (Drama Triangle) and other tribal groupthink vicious mobs are non-thinkers, They are violently opposed to thinking and in love with corruption, power, violence and tribalism.

'What we commonly call Nihilism.... Is actually a danger inherent in the thinking activity itself.... Nihilism is the other side of conventionalism, its creed consists of negations of the current so-called positive values, to which it remains bound.... But the danger does not arise of the Socratic conviction that an unexamined life is not worth living, but, on the contrary, out of the desire to find results that would make further thinking unnecessary.' - Author(**Hannah Arendt**) Year[1976] Age(70)

Introduction

At any time on the planet there are only a few men who carry the ideas of the West forwards. They do this by example, arguments, discussion, education, writing and books. The rest are lost in childish ignorance, fear, tribal warfare (tantrums, mean girls, etc) , narcissism, greed, the seven deadly sins, fat, dumb, lazy, anxiety, etc. Many are barbaric tribes. Most people are binary thinkers and lost in constant tribal warfare -a tiny percentage of people have the time, wealth, cognition, interest, etc to explore higher level concepts and ideas at level 3 thinking and beyond.

Some of these few people who carry ideas forward were: Hesiod, Pythagoras, Confucius, Parmenides, Heraclitus of Ephesus, Herodotus, Euripides, Socrates, Democritus, Archytas, Plato, Aristotle, Euclid, Archimedes, Eratosthenes ,Hipparchus, Marcus Tullius Cicero, Lucretius, Strabo, Ovid (Publius Ovidius Naso), Lucius Annaeus Seneca/Seneca the Younger, Pliny The Elder, Plutarch, Marcus Aurelius, Diogenes Laertius, Diophantus

Many of their ideas and stories were carried forward and discussed through time. When **Voltaire** (1694 to 1778) arrives he has the wealth of knowledge that has gone before - the knowledge of recent history in Europe and the history the Romans and Greeks - plus access to the men of his recent time and all their books - he went to London to mingle with Jonathan Swift and many other intellectuals, he travelled through Europe he meet with people from Leiden University, he saw what had happened in England and what they were writing, and he saw what was happening to France and where it was heading. He travelled through Europe like Descartes had done - and mingled with the people and observed what was happening.

'let us remember that this wisdom of life is the true salt of literature; that those books, at least in prose, are most nourishing which are most richly stored with it; and that it is one of the great objects, apart from the mere acquisition of knowledge, which men ought to seek in the reading of books.' -

Author(**John Morley**) Year[1887] Age(49) Source_Document(Aphorisms) Keyword(Humanism Choice Individual)

Voltaire was influenced by a network of ideas and people of his time -

William Shakespeare, Galileo Galilei, Johannes Kepler, Marin Mersenne, Thomas Hobbes, Rene Descartes, Samuel Hartlib, Athanasius Kircher, John Milton, John Wallis, Blaise Pascal, Christiaan Huygens, Baruch Spinoza/ Benedict de Spinoza, John Locke, Robert Hooke, Isaac Newton, Gottfried Wilhelm Leibniz, Abraham de Moivre, Bernard Mandeville, Montesquieu, Thomas Bayes, Leonhard Euler, David Hume, Jonathan Swift, John Arbuthnot, people from the Royal Society of London and many others.

Voltaire won the French lottery so he was independently wealthy - he saw what was happening around him - he was awake to reality.

So, he wrote. People read his writings.

He wrote millions of words - directly - to the point and explaining reality in way that connected with many people. He wrote drama, plays, pamphlets, notes, letters, books.

There are few people of my time who are carrying the idea of the West forward. Some are

Thomas Sowell, Erin Pizzey, Richard Dawkins, Dan Dennet, Christopher Hitchens, Anthony Clifford Grayling, Monty Python team, Douglas Adams, Iain McGilchrist, Clive Hamilton, Stephen Pinker, Jonathan Haidt, Niall Ferguson, Janice Fiamango, Gad Saad, Bjorn Lomborg, Sam Harris, Alain de Botton, Bret Weinstein, Douglas Murray, Brendan O'Neill, Cassie Jaye, Victoria Hart

Konstantin Kisin - gets what is going on - he sees reality.

The west as we know it has taken thousands of years to develop at great cost but is under constant attack from barbarians, tribes, the ignorant and religious fanatics. Many tribal types and dim-wits have infiltrated the political, judicial, education, media and all parts of society and are hell bent on tearing everything down for their own benefit.

Penny Wong's Speech on Rules of War

I need to provide some context first.

Russia invades Ukraine **targeting civilians** by bombing housing and apartment blocks - it does this to try to break the will of the people. This war has been going for a couple of years now with Russia being supported by China and North Korea. China, Russia and North Korea are run by ruthless dictators who have made themselves dictators for life. They kill anyone who disagrees with them.

China is pushing boundaries and attacking others in the Pacific, India and many other places on the planet.

Israel is attacked by Muslims who commit the most horrendous war atrocities. All of these terrorists hide in tunnels under schools, hospitals and surround themselves with civilians. When Muslims drive around they use children, hostages and others as human shields to protect them from any snipers. They don't wear army uniforms - they pretend to be civilians and not soldiers and never wear an army uniform in case an Israeli sniper shoots them. Suicide bombers are not dressed in army uniforms - they threaten, brainwash and use men, women and children to carry bombs and blow themselves up - they do this all over the world.

Penny Wong provides aid to Muslims using taxpayer money from Australia and Tanya Plibersek and Penny Wong want ISIS terrorist women - to come into Australia to have free housing and support. Penny Wong has also let in hundreds of Muslims from Gaza - Ed Husic and Anne Ely wanted this as well because they are Muslims and represent Muslims in parliament - many of these Muslims (Committed to the destruction of Israel and the death of Jews) are in Australia and more are on their way seeking permanent residency in Australia to help boost the Greens/Labour party votes. Tony Burke, Ed Husic and many others want to appease the Muslim voters in their electorates. Like women and blacks represent women and blacks - these politicians represent their tribe, those who they are most afraid of or who whinge the most.

Much of the international aid money - controlled by the corrupt United Nations - which goes to Palestine - is used to support the terrorist organization and the education system is designed to train children how to shoot Jews. Much of the rest goes to the leaders of Hamas for their own personal profit. Palestine is controlled by Muslims and terrorists.

Israel has to also fight the Muslims in the north in Lebanon and Syria (failed Muslim states) who send rockets towards civilians in Israel every day. Muslims from Yemen also send rockets and disrupt world shipping. Iran supports all this and Russia and China support this war as well. None of the other Muslim states condemn these actions or do anything about it - no Muslim dares to criticize another Muslim because when Muslims are not killing Jews - they kill each other (as they have done throughout history)

Israel tells civilians to get out of areas well before it sends in missiles and uses as much information it can to ensure that they are targeting only known spots and people who are terrorists. Most of these terrorists hide in tunnels underground beneath schools, hospitals and civilian areas where they try to blend in and hide amongst the civilians around them. In other words - they try to live a normal life and enjoy normal things while everyday sending rockets to destroy other people. It seems like a remote war for them - these Muslim terrorists have had no consequences most of the time and are well funded for their constant warfare - they see themselves as heroes for the cause. These Muslim terrorists are smugly enjoying life while constantly attacking other people from what they think is smug safety - laughing and cheering each other on. Hold on to that idea and then compare that with Women, Black and other Religious tribal elites - Russia, China, North Korea, Muslim Countries, etc.

Ukraine also defends itself by targeting mainly military targets in Russia - not civilians like Russia routinely does and China does by taking hostages.

Australian Universities, media and Greens/Labour politicians support Hamas terrorists and encourage and support them to kill as many Jews as they can and remove them from Israel and destroy the country of Israel. Australian schools encourage students to “stand up” for Palestine (**Entitled Victims**) and Black activists, Unions and other groups are all on board with this. Penny Wong is urging Israel to stop defending itself from muslim attacks which have not stopped since the Muslims started the war on October 7th last year 2023. Israel has been accused by Penny Wong and others of “*escalating the war*” by defending itself. This has fueled anti Semitic - Jew hatred - in Australia and many countries. <https://www.foreignminister.gov.au/minister/penny-wong/transcript/press-conference-new-york-5> “*So, all parties should restraint de-escalate and comply with UN Security Council resolutions.*”

It is a deliberate methodology of Genghis Khan, Hamas, Muslims, Iran, Russia, China, North Korea to bully, brutalize, take hostages, threaten and terrify by power and threats - anyone who dares stand up to them. They hide behind women and children and claim to be “Family people” (They see children as cannon fodder to be used as a weapon for the cause - very much like Russia press-gangs people to use as cannon fodder in its invasion of Ukraine) and on a self-righteous and just cause - hence this allows them to do whatever they feel like because then they can run away and hide and claim to be victims. China claims that Australia is the “Enemy” and Australia is attacking China and China is “defending itself”. This is part of the **entitled victim mentality** and the **passive aggressive Hero narrative** - at constant “War” with the “enemy”. This thinking dominates tribal extremists, Women, Blacks, Muslims, China, Iran, North Korea and many other places.

Lebanese and other muslims in cities in Australia are going around to Jewish places of worship and other areas - painting signs and delivering messages of hate and driving cars with gangs of muslims to intimidate anyone they think is a Jew. Jews are blocked from attending universities and are openly bullied and threatened in Australia on a daily basis by Muslims and muslim supporters. Most of Greens/Labour politicians support this and do nothing about it. Tribal hatred of Jews and White men is common amongst women, blacks, muslims, binary extremists in much of Australia now - Courts, Media, Universities and politics. The ABC openly supports tribalism and tribal warfare with constant **tribal victim narratives** in support of Blacks, Women and other tribal groups and against white men or people not from their side of politics, Muslims also adopt the victim narrative and side with Blacks, Unions and weak minded “heroic” men. Sky news also supports victim narratives for Women - constantly - any women or black working anywhere constantly claims tribal victim status and works within their organization to constantly attack white men and promote tribal victim causes. The Courts, Politics, Media, Universities, Schools, Police - everywhere.

Jewish and Australian flags are being burned in the streets of Australia. Aboriginal and Isis flags are waved around in the streets on daily basis - celebrating tribalness and tribal victimhood and violence.

Isis terrorist flags are hung over parliament house in Canberra - cheered on by the Greens/Labour - especially the women and the muslim women.

Parliamentarians and University students wear the clothes of Muslim terrorists as a proud sign of **solidarity** and support with Hamas and their continuing attacks on Israel and the keeping of civilian hostages.

Parliamentarian's offices are blocked and attacked by people who proudly support Hamas. Not only muslims but women, blacks and weak minded tribal people who see themselves as Heroes in the binary drama triangle.

China takes people as hostages and threatens them with the death penalty. This is called "Hostage Diplomacy". Penny Wong caved into China where 2 people - a man and a women were held. She asked for them both - China said - you can only have the women if you do what we say - Penny said OK whatever you want - as long as the woman is freed. This now puts every Australian at risk travelling to China. **By giving into to Hostage taking - it just encourages more hostage taking.**

The pig ignorance on display by Penny Wong on Tribal women's issues are also held by all of the staff at Foreign Affairs - who are also binary thinkers - mainly women and deeply ignorant of the world. i.e. **Penny Wong does not act for Australia** - she acts for herself (her just cause - her heroism) and women - preferable Lesbian women with children (How does that happen? Who thinks raising children without a father is a good idea?) - which she is heroically doing "Whatever it takes" "No matter what the cost" to "Save". Penny is not a "Minister of the State" but a "Minister for Women and Muslim Voters". Penny is proud to be "Heroic" for women's causes. This like the Australian Human Rights agency (dominated by women) who doubled down on the "keeping Women and Their Children Safe" legislation despite my partner and I writing and arguing the bias and what about men and "Their children". All Australian government departments are corrupt and run by Women and weak minded tribal men who work for women's causes and denigrate men continually. Same for Media (ABC, Sky, Guardian, etc), Universities, Charities, etc - tribal Women and Blacks. The Australian Senate attacks anyone who dares to stand up from men or questions the tribal identity groups. E.g. attacking Pauline Hanson, Bettina Arndt, etc. Tony Abbot and Peta Credlin all played a part in demonizing Pauline Hanson for expressing her opinion.

Penny Wong's Speech <https://www.foreignminister.gov.au/minister/penny-wong/speech/un-summit-future-united-nations-hq-new-york> **UN summit of the future, United Nations HQ, New York Speech, check against delivery 23 September 2024**

The United Nations is fully corrupt, deluded and out of control. Countries like China, Russia, Syria, Lebanon, Palestine and others all get to control the debates. Most of the officials are corrupt, tribal, bribed by China or pig-ignorant of the world. Ex Greens/Labour politicians are gifted plumb jobs at the United Nations at Australian taxpayer expense.

Subjects: Escalation of Middle East violence; support for Ukraine; meeting with Chinese Foreign Minister Wang Yi.

26 September 2024

*Penny Wong, Foreign Minister: Hi, everybody. Okay, so we're in between meetings, so I might be rather efficient. I want to start first with the situation in Lebanon. This will be the subject, I understand, of a meeting of the United Nations Security Council this evening. **Civilians are being***

killed in Israeli strikes, including women and children. We condemn, Hezbollah's continued attacks on Israel. But I do say again, Lebanese civilians cannot be made to pay the price of defeating Hezbollah. “

When people say “including women and children” it is used to highlight that women and children are the real victims - the men do not count as victims - only the women and children count - they are the real victims we should be concerned about. This statement is used constantly at schools, media and is legislated and mandated in politics, courts and by police. People who use this statement are delusional - they think they are showing great empathy and heroism - when in fact all they are showing is deep tribalism, binary extreme thinking and smug self satisfying virtue signaling.

The **people of Lebanon have done nothing to eliminate, prosecute or put on trial those people in Lebanon who are sending rockets into Israel** - hence Lebanon is a rogue state which is a party to the conflict. It is dominated by muslim extremists and tribalism - it supports war against Israel. It is controlled by Iran and muslim extremists which is what muslims do whenever they are in a country. Imagine Australia doing nothing if some group in Australia decided to send rockets on a daily basis into New Zealand for a year - would Australia simply ignore this or try to capture and arrest those people sending rockets? The people of Lebanon all know who these Hezbollah terrorists are - they live amongst them - yet the government and the people do nothing to stop them or bring them to account in a court of Law. Nor does the United Nations mention or seriously call out Lebanon, Palestine, Iran, China, Russia and North Korea - who are all rogues states controlled by **insane tribal dictators for life** out of control and causing chaos in the world.

“So, all parties should restraint de-escalate and comply with UN Security Council resolutions. The global community has made clear that this destructive cycle must stop. What has happened in recent days “

What happened Penny - was it that Israel was killing Hezbollah terrorists at war with them? You think Iran, China and Russia do not want war? If only we all appeased them, Penny - like appeasing women and blacks and giving them whatever they want? If only we flew more Isis flags and elected more muslims to parliament - then the muslims would be appeased? If only we all wore teatowels around more necks and kept the women covered and “protected” breeding more canon fodder and breeding units for the never ending tribal war of “God”. A Roman Pantheon to the Gods of the Tribes https://en.wikipedia.org/wiki/Pantheon,_Rome

Penny has not asked Lebanon to capture Hezbollah and put them on Trial - why not Penny? is Hezbollah a separate “State” and should be part of “Three State Solution” - what fuckwits she - and all of her staff are. How many Lebanese in Australia are supporters of Hezbollah Penny? When are you and Ed Husic going to let in more muslims from Lebanon to settle in Australia as “Victims”? <https://www.spiked-online.com/2024/09/24/the-wests-reckless-dishonesty-over-lebanon/>

If the Lebanese refuse stand up to the Muslim extremists in Lebanon do you think they will stand up here in Australia? Or are they part of it?

“ only makes an immediate ceasefire in Gaza, even more urgent. You would have heard me say this before, and I say it again, Lebanon cannot become the next Gaza. I met with David Lammy, the UK Foreign Secretary, today, and we discussed on our shared view that there is a need for a ceasefire in

*Lebanon. I know that this is something that will be discussed by international partners and the international community, including the Security Council, this evening. Can I say this in relation to Gaza, I want to again say, reiterate Australia's call alongside so many here in the United Nations for an immediate ceasefire in Gaza. **Hostages must be released** and aid must flow."*

She fails to say all the **multisims** should stop firing rockets into Israel and attacking ships in the shipping lanes and taking hostages.

"If I can return now to consular issues in Lebanon and say again to the Australian-Lebanese community, "

We don't have an "Australian - Lebanese" community - we have Lebanese muslims travelling backwards and forwards to Lebanon (a rogue state controlled by terrorists who fire rockets into Israel) as dual nationals. They see themselves as Muslim Lebanese - **not Australians**. We have entrenched Muslim tribalism in the Suburbs of Australia as Gangs and no-go zones for Jews or anyone who is not a Muslim. This is not "Multiculturalism" or "Refugees" as insanely endorsed and promoted by the United Nations - this is a tribal invasion of people who hate Australians (like Blacks and Women do - tearing down all parts of society) and anyone who is not a muslim.

"this is a deeply distressing situation for so many of you. I know that there are many Australians in Lebanon. There are many Australians who have relatives, family and friends. I again urge Australians in Lebanon to leave now. There are flight cancellations and disruptions and there is a risk that Beirut Airport may close for an extended period of time. I again say, please do not wait for a preferred route. Please take the first option you can to leave. We continue to monitor the situation closely. We have been working with partners on contingency plans now for many months. But I again say to anyone who - any Australian who is in Lebanon, please leave now.

*Finally, just to recap on what I have been engaged in today, today I've met, as I said, with the UK Foreign Secretary, David Lammy. I've met with the President of the Maldives, **I've met with the Palestinian authorities**, Prime Minister and also with the Opposition Leader of Belarus, a country, which has seen the same sort of weight of Russian involvement that we have seen so much of in recent years. I've also attended the Foreign Minister's meeting of the G20 and a meeting on **sea level rise**, which we know is of such concern to the **Pacific family** and spoke with that meeting about our **Tuvalu Falepili Union**, which contains really groundbreaking commitments in international law.*

*This morning **I was very proud** to join the Foreign Ministers of Germany, Canada and the Netherlands to support Germany's push to hold the Taliban to account under international law for the **Taliban's treatment of women and girls**. We know that **women and girls** of Afghanistan are effectively being erased from public life by the various edicts the Taliban have issued. The steps we are taking with Germany, Canada and the Netherlands are unprecedented. We are intending to use the convention on the elimination of all forms of **discrimination against women** to which Afghanistan is a party to take action. The Taliban have demonstrated their contempt for human rights and fundamental **freedoms of women and girls**, and they have engaged in a campaign of sustained and systematic oppression. What I had said at the meeting this morning is we have two choices. We can say, stay silent, or we can act in **solidarity with the women and girls** of Afghanistan. I'm happy to take some questions.*

Journalist: Minister, you say you've been discussing contingencies on the position post by Australians in Lebanon. Is there any chance that some of those Australians seeking to get out might get military assistance to depart in the days ahead?

Foreign Minister: Look, we have been working on contingencies and obviously we continue to engage with partners about those contingencies. But I will again say what I said yesterday, which is we have very large numbers at this stage of Australians in Lebanon. It would not be possible for the government to assist all Australians in Lebanon, which is why I have been urging people to leave for some months. Obviously, we'll continue to work with partners about what arrangements can be made. But I again say the numbers would render it unlikely that we would be able to help all Australians who are in Lebanon, which is why I again say if you are in Lebanon and you wish to leave, you should do so now. If you are in Lebanon and you are an Australian, you should leave by whatever route you can.

*Journalist: French President Emmanuel Macron has warned Israel that they should not extend the conflict into Lebanon without consequences. **What consequences should Israel face?***

For daring to protect itself from constant daily attack? "Consequences" for their alleged "Crime?" - what kind of fuckwit are you?

*"Foreign Minister: I'm not going to speak for President Macron, but I think the sentiment that he is expressing in that is the same sentiment that many here in New York have been expressing. It's the same concern that David Lammy and I were focused on in our bilateral, which is the consequences for civilians in the region of a wider conflict. I mean, remember the reason we have all been **urging restraint** through this is because we know what a wider conflict would mean to all the peoples of the region."*

That's **bullshit Penny** you sick minded tribal man-hater - have you called on Iran? Have you called on Yemen? Have you called on Lebanon or Syria? Have you called on Palestine to HAND OVER THEIR HAMAS WAR CRIMINALS?

*"Speaker: What is your current assessment we've heard from the IDF that they are potentially preparing to have boots on the ground? Do you believe **a full-scale war between Israel and Hezbollah** is likely?"*

Why is it not a full scale war now? - Hezbollah sends rockets in to Israel every day with Lebanon and Iran's support and is committed to killing as many Jews as possible - civilians or not.

"Foreign Minister: Well, I hope that is not the case. And I will continue working with others here in New York because I think the international community needs to make a very clear statement in relation to the situation in Lebanon and needs to be very clear about the risks of regional escalation, not just to the people of Lebanon, but to the people of Israel."

Penny - why do you think it acceptable to take and hold hostages and fire rockets into your country every day? Is that your plan for Australia? In case things "escalate" it is better to Kowtow?

“Journalist: Is your contingency - does your contingency planning involve evacuations to Cyprus? And have you had any questions from the US and the French today as to whether their efforts to de-escalate the situation with regard to Lebanon has been successful?”

Foreign Minister: There are ongoing discussions in relation to that last issue, I think. As I outlined, including it is scheduled for discussion of the security council tonight, and we hope the security council and the broader international community can move to deescalate the situation. In relation to the first question, you would anticipate we are looking at the full range of options in terms of contingency arrangements. But I again make the point about capacity, which is this, we have a great many Australians in Lebanon. We would urge you to leave now whilst you still can.

Journalist: Minister, given the statements of a general in the Israeli Defence Forces to troops now widely reported that telling them that they're going to have their boots on the ground in Hezbollah-controlled villages in Southern Lebanon. Do you believe Israel has justification for a ground invasion of Lebanon?”

I wont answer the question. This is the same as the ANU students, ABC staff and University professors who say **“I Will Not Condemn Hamas”** What an **appalling human being she is** - a disgrace to Australia and a pig-ignorant narcissistic “Proud” tribal psychopath. Lebanon have done nothing about the muslim terrorists in their country - they refuse to prosecute them or take on Iran - very much like the mulsims in Australia who preach hate and form into tribal gangs.

“Foreign Minister: I would say that Lebanon cannot become the next Gaza.

Journalist: You met with representatives from the Palestinians. Can I just ask what you spoke to them about and what did they ask of Australia?

*Foreign Minister: **We had a very constructive discussion.** They are aware of the position Australia has taken on many issues. They are aware of the decisions we've taken to*

demonstrate support *both in action and word for the*

Palestinian cause. *They know that the* **very clear view of**

Australia *and of this government is that the only way to peace and security for both Israel and for Palestinians is with **a two-state solution.** We'll continue to engage.”*

How dare you speak on my behalf you insane binary tribal man-hating fuckwit.

“Journalist: There is a report that Australia might be looking to offer Ukraine tanks, old Australian tanks. Can you just tell us what the progress is there and is that a possibility for the future?”

Foreign Minister: I would say that this has been raised, I think publicly and certainly with me by the Minister previously. And as I said to him, I express that we would communicate that request to Defence. We will continue to do all we can to assist Ukraine, to support Ukraine, we are the largest non-NATO military contributor to Ukraine. I met with the minister this week and assured him of our continued support, and we certainly will continue to look at ways in which we can support Ukraine.

Journalist: You met with your Chinese counterpart yesterday. Can I ask, were Joe Biden's comments that were caught seemingly on a hot mic at the Quad raised during that meeting? He described China as acting aggressively. Was that brought up by your Chinese counterpart and what do you have to say about that?

Foreign Minister: Well, certainly the Quad is something we have discussed in this and other bilaterals. I've explained to Foreign Minister Wang Yi that Australia is engaged in the Quad just as we engage in all other forums in pursuit of peace, stability and prosperity. And that's what we work with partners to achieve.

Thanks very much."

Penny Wong has done everything she can to kowtow to China - it's military aggression - attacks on Australians and other countries and its taking of hostages is rewarded by secret deals she makes with them. She went around the Pacific handing out bags of cash and promising to help with elections of the entrenched tyrants.

Telling people they are wrong and have done the wrong thing is not aggressive - it's a fact. The Truth and Reality really do exist - pretending otherwise is delusion. China has been aggressive - it is not a secret. It stole the plans of our new Security office, attacks our computers systems regularly and seeks to undermine our government and society with Chinese Nationals in Australia acting on their behalf. There are Chinese gangs, Lebanese Gangs, New Zealand Gangs, Bkie Gangs, Black Gangs - drug cartels and other activities all designed to weaken what is already and weak and limp society run by women, blacks, liars and weak minded men like Anthony Albanese, Dan Andrews (China Lovers), Bob Carr, Paul Keating and the rest of the Greens/Labour elite collective - all supported by the corrupt media ABC and women and black tribal victim journalism. The Drug epidemic in USA is cheered on by those who want to profit monetarily and strategically from a drug addled and weak society.

Criminals from New Zealand, Lebanon or anywhere else who are non-citizens or dual nationals who commit crimes in Australia or are involved in Terrorist ideology should be returned to the country of nationality. It was wrong of Albanese to change that position with New Zealand's criminals sucking up to that tribal fuckwit Jacinta Ardern. It is wrong to import criminals from Muslim countries. It is wrong to import Isis terrorists no matter what their gender - they are no longer citizens, their citizenship is NOT A HUMAN RIGHT - get rid of court interference and expensive Taxpayer funded green/Black/Migrant/Criminal lawfare. Stop using taxpayer fund to fund the legal scum class. <https://www.smh.com.au/politics/federal/dutton-demands-law-changes-to-cancel-visas-over-hezbollah-protests-20240930-p5keic.html> ... Premier Jacinta Allan and Foreign Minister Penny Wong on Monday condemned any support for Hezbollah. "It is utterly **unacceptable for anyone to be showing support for that proscribed terrorist organisation**," Allan said. Wong said: "It not only threatens national security, but **fuels fear and division** in our communities." Hezbollah's armed wing has been listed as a terrorist organisation by Australia since 2003; the Morrison government added the entire organisation to that list in 2021.

Yes that's right Penny you insane man hating tribal fuckwit - Women and their Children "**Safety**" and Black Tribal Activism and constant funding for "Women's Issues" do not **fuel fear and division** - does it? , you **fucking cunt** - but muslims do?

All of the Greens/Labour fucking cunts, and their supporters - ABC, Courts, Universities, Schools, etc having been egging on this rampant tribalism and **entitled victim narratives** for decades now. Separate Land for Aborigines, Separate "Victim" Money, Tribal media, Separate TV and Radio stations for Blacks, Muslims and other fucking tribes, Tribal Laws, Tribal Treaties, tribal Parliaments, Tribal Ministers - the list is endless - you fucking tribal cunts - Women, Blacks, religious fanatics, zealots, binary extremists and weak minded "heroic" men have been fucking everything for decades now and demonizing anyone who tries to stand up to you fucking criminal lying corrupt cunts. Destroying boys and men - especially white men - anyone with half a brain is constantly attacked by the tribal mobs - Women, Blacks, Religious Zealots, hysterical women and weak minded men.

<https://www.dailymail.co.uk/news/article-13909143/Waleed-Aly-unleashes-Steve-Price-Project.html> *'We do not want people to bring radical ideologies and conflict here, our multiculturalism and social cohesion cannot be taken for granted,' Prime Minister Anthony Albanese said ahead of a cabinet meeting in Canberra on Monday.*

What a fucking cunt Albanese is - stoking up tribalism and victim narratives for Blacks and Women and then claims he is a hero for "Multiculturalism" and Social Cohesion. What a Cunt. Why don't create an "Office For Muslims" you tribal criminal corrupt cunt - that would win you votes with the Muslims. See **Equality Diversity Proportion Value Trust** <https://humanistman.com/wp-content/uploads/2021/05/Equality-Diversity-Proportion-Value-Trust.pdf> *'Your Smug Certainty is only exceeded by your ignorance, incapacity, fear, hypocrisy, virtue and self interest'*

The Greens/Labour tribalists, Women, Blacks, Muslims, Tribal extremists, causists and weak minded men are a national security risk. Foreign Affairs is run by Tribal Women and Weak minded men. The Australian Ambassadors to USA and UK are ex Labour politicians full of graft and corruption - one loves Trans activists the other denounces Australia day. All sectors of Australia now are dominated by tribal extremists - women, Blacks, Causists, Binary extremists, Muslims, Religious fanatics and weak minded men who delude themselves that they are playing the "Hero" to the tribal causes.

Don't look to the women and Blacks to do anything - they are the fucking problem! No woman or Black EVER calls out their own tribalism. This rampant smug tribal corruption dominates politics, schools, universities and the media and there are too many pig-ignorant fucking tribal men caught up in it deluded heroic dim-wits for whinging women and blacks.

I Have a Theory - An Hypothesis

Many people in Europe in the 1600s to 1700s were willing to explain their thinking in writing to try to understand things. Even if it seemed to them so straight forward - they had to check to see if other people understood it to. So the theories can be exposed without demonizing people. You don't know if a theory is useful or not. This sharing of ideas and **wide ranging exploration** is part of the corpus of humanity.

https://en.wikipedia.org/wiki/Carol_Dweck *In a fixed mindset students believe their basic abilities, their intelligence, their talents, are just fixed traits. They have a certain amount and that's that, and then their goal becomes to look smart all the time and never look dumb. In a growth mindset students understand that their talents and abilities can be developed through effort, good teaching and persistence. They don't necessarily think everyone's the same or anyone can be Einstein, but they believe everyone can get smarter if they work at it.*

In July 2019, a large randomized controlled trial of growth mindset training by the Education Endowment Foundation in England, involved 101 schools and 5018 pupils across the country. After the trial they found that pupils in schools receiving the intervention showed no additional progress in literacy or numeracy relative to pupils in the control group. These findings were determined by the national Key Stage 2 tests in reading, grammar, punctuation, and spelling (GPS), and mathematics

The 1600s into 1700s the world was exploding with theories and arguments - all being discussed and thought about. Eventually over time the more sensible and usable (Mills utility) theories started being tested and tentatively explored in non authoritarian and dogmatic ways.

The more you argued and tested things - the better they got.

Powerful Memes of Moral Authority

Ideas and symbols can be powerful things. We have seen the imagination captured by vague but powerful images as angels, demons and Gods. Different levels of abstraction - sufficiently vague and sufficiently certain can help connect ideas in our imagination.

John Arbuthnot - a friend of Jonathan Swift had invented a **Meme** (See **Richard Dawkins** https://en.wikipedia.org/wiki/The_Selfish_Gene) of Moral Authority called **John Bull**. But it was more complex than that - a kind of archetype of fair dealing - with human flaws and generally trying to do the right thing. The Everyman - the decent man.

https://en.wikipedia.org/wiki/John_Arbuthnot https://en.wikipedia.org/wiki/John_Bull *John Bull* originated as a *satirical* character created by *John Arbuthnot*, a friend of *Jonathan Swift* and *Alexander Pope*. Bull first appeared in 1712 in Arbuthnot's pamphlet **Law is a Bottomless Pit**.^[1] The same year Arbuthnot published a four-part political narrative *The History of John Bull*. In this satirical treatment of the *War of the Spanish Succession*, John Bull brings a lawsuit against various figures intended to represent the kings of France (Louis Baboon) and Spain (Lord Strutt), as well as institutions both foreign and domestic.^[2] The allegory was intended primarily as attack against the *Whigs*, their foreign policy and their financiers who were profiting from the war.^[3] In Arbuthnot's work John Bull personifies *England* while his sister Peg symbolises his native *Scotland*

William Hogarth and other British writers made Bull, originally derided, "a heroic *archetype* of the *freeborn Englishman*."^[4] Later, the figure of Bull was disseminated overseas by illustrators and writers such as American cartoonist *Thomas Nast* and Irish writer *George Bernard Shaw*, author of *John Bull's Other Island*.

Starting in the 1760s, Bull was portrayed as an *Anglo-Saxon* country dweller.^[1] He was almost always depicted in a buff-coloured *waistcoat* and a simple *frock coat* (in the past Navy blue, but more recently with the *Union Jack* colours).^[1] *Britannia*, or a lion, is sometimes used as an alternative in some *editorial cartoons*.

FOR the better understanding the following History, the Reader ought to know, That Bull, in the main, was an honest plain-dealing Fellow, Cholerick, Bold, and of a very unconstant Temper; he dreaded not Old Lewis either at Back-Sword, single Faulcion, or Cudgel-play; but then he was very apt to quarrel with his best Friends, especially if they pretended to govern him: If you flatter'd him you might lead him like a Child. John's Temper depended very much upon the Air; his Spirits rose and fell with the Weather-glass. John was quick, and understood his Business very well, but no Man alive was more careless, in looking into his Accounts, or more cheated by Partners, Apprentices, and Servants: This was occasioned by his being a Boon-Companion, loving his Bottle and his Diversion; for to say Truth, no Man kept a better House than John, nor spent his Money more generously. By plain and fair dealing, John had acquir'd some Plumbs, and might have kept them, had it not been for his unhappy Law-Suit.

The cartoon image of stolid, stocky, conservative and well-meaning John Bull, dressed like an English country squire, sometimes explicitly contrasted with the conventionalised scrawny, French revolutionary sans-culottes Jacobin, was developed from about 1790 by British satirical artists James Gillray, Thomas Rowlandson and Isaac Cruikshank. (An earlier national personification was Sir Roger de Coverley, from a 1711 edition of *The Spectator*.)

A Discourse of Letters by way of a Socratic Dialogue

Letter writing became popular. Letters also become public as part of history.

Belle Letters - civilized discourse, a comedy of manners - The importance of being Ernest
https://en.wikipedia.org/wiki/Henry_Fielding In 1728, Fielding travelled to **Leiden** to study classics and law at the university.[3] However, penury forced him back to London, where he began writing for the theatre. Some of his work savagely criticised the government of Prime Minister Sir Robert Walpole. https://en.wikipedia.org/wiki/The_Author%27s_Farce

The style of writing changes from poetry to letters. Imaginary Letters become a Socratic dialogue between actors and characters in books. A thoughtful dialogue composed as articulate letters of communication - not the rough and tumble of Dramatic theatre or Greek Choruses. If Books are written the responses are written as another book or pamphlet or a direct letter to the author which is then incorporated into the next version of the book with the responses.

So we can see history - not only as events - but as events, ideas, debates and discussions. All of these interconnected ideas - Why did someone write this? What was happening at the time? What am I missing - what was going on around the time and place? How can I make sense of a book if I do not have a broad and wider context and deep understanding of the place, time, people, memories, history, wars, weather, etc. A complex network of people and events

The State of Things - In Combination

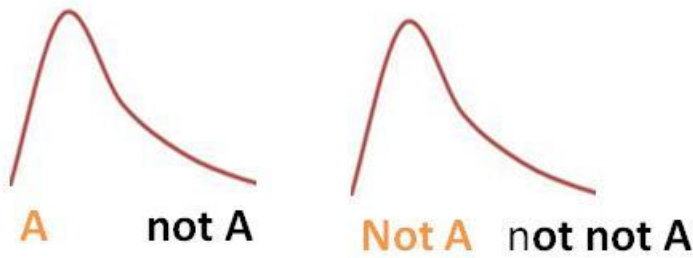

I was looking at a combinations matrix where someone had come up with 9 pairs of combinations including the unknown. I wondered how they came up with 9. So I will now explore the 4 box model at a higher level of abstracting to see what I can discover.

We are now emerging into higher level 3 thinking and higher levels of abstraction and recursion.

So what is the state of a thing? It sounds a bit like Quantum physics
https://en.wikipedia.org/wiki/Quantum_state

I am going to define the state of a thing called A in relation to the universe. I will be using infinities. At first you might think this is a waste of time and really has no meaning but as you explore more you will see it is probably a bit of a **major insight into things** and a method of avoiding binary thinking and skipping over assumptions. A trick here is to turn the idea of Certainty of **A** into a different thing and adding a certainty of **Not A**. The things we need to do prove the certainty of A are not the same as the things we need to do prove the certainty of Not A. It's a kind of general hypothesis test we then can take to combinations of things. E.g. I think that is definitely an A because of these things. I think that this is definitely Not A because of these things.

1. Infinitely and Certainly A
2. Infinitely and Certainly Not A
3. Certainly Some of A and some of Not A on a continuum
4. Double not, not recursion - infinitely unknown

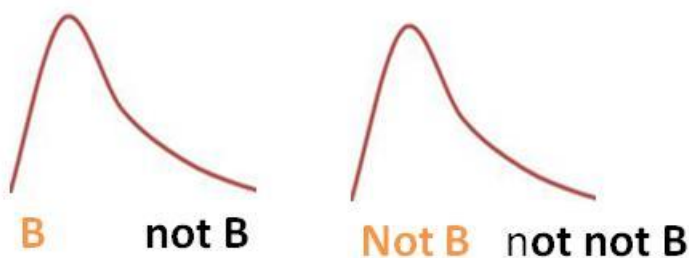

A Not A	Not A not A
A not,not A	not A not,not A

There is a kind of definite certainty that I am giving the definitions of **A** and **Not A** while bringing along their infinite opposites of their Nots on a continuum. This is **extremely difficult to understand and comprehend** yet we continue with the exercise by doing the same with another thing B and then seeing the combinations. Some A's may be generally described by only a few main things - those things are enough to declare it certainly as an A - but there are infinite NOT A things which have to be examined before you can find things that certainly make it NOT A.

“When is an Apple, Not an Apple?”

But notice this - Artists, Inventors, Discoverers are very good at exploring the definition of NOT A. An Apple is an Apple but the NOT Apple is infinite i.e. an Apple is not like a Rock except sometimes in shape. So when someone discovers one of the infinite NOT A characteristics - they are deliberately exploring or observing things about the NOTness of the A. So when someone finds a phytochemical that is in one Apple and not others <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC442131/> - it can be investigated to see if it has some special benefits for humans. i.e. something seems different - this thing only appears in this A and no other As. I am not sure if scientists and inventors have this as an innate skill of they have built the model formally.

It is a kind of **“Something Seems out of Place”** with this thing observation. Artists explore strange “Out of Place” ideas.

B Not B	Not B not B
B not,not B	not B not,not B

So what I have done is made the infinities and certainties clear for each thing A and B by bringing along their 4 box model with them. I can now then do a Binary combination of 2 lots of 4 things 4*4 = 16 different combinations of these two definitions to see what they look like. Trying to see the “State of Things” in possible combinations.

1. **A, Not A, B, Not B**
2. **A, Not A, Not B, not B**
3. **A, Not A, B, not,not B**
4. **A, Not A, not B, not,not B**
5. **Not A, not A, B, Not B**
6. **Not A, not A, Not B, not B**
7. **Not A, not A, B, not,not B**
8. **Not A, not A, not B, not,not B**
9. **A, not, not A, B, Not B**
10. **A, not, not A, Not B, not B**
11. **A, not, not A, B, not,not B**
12. **A, not, not A, not B, not,not B**
13.

I suppose the point I am making is that when combining two things in general the method that I use above is generic and includes all of the infinities and certainties and puts them in their place. It still depends on how much work you put into the exploration of the Definition and Measurement of **A** and the Definition and Measurement of **Not A (and for B and Not B)**

For example

- **A** is definitely and certainly **A - as far as I can tell from the work I have done.**
- **not A** is the degree of uncertainty **that I have in the definite and certain A**
- **Not A** is definitely and certainly **Not A as far as I can tell from the work I have done..**
- **not not A** is the degree of uncertainty **that I have in the definite and certain Not A**

This is a significantly more comprehensive philosophical view of things than most people can imagine. This is an advanced frame. Few people understand this and no-one that I know of has described this idea this way. I have described it so even binaries can work their way through it.

This way of exploring things in combinations allows a more explicit exploration of the infinities and uncertainties but is beyond most people in thought. Most people cannot understand this and it is highly unworkable in conversation. It can only be done by meticulous working out on paper and carefully checking (which I have not done in my list in my example above) each step of the way to see what you discover. No-one carries 16 combinations of nuanced things in the head when having conversations about things. Let alone understanding the definitions they bring with them for defining A and Not A and B and Not B.

Few Things the Same - Many Differences

If you understand the previous paragraphs about the **A** and **Not A** specifically declared then you are starting to understand plurality. The infinity of differences is where the great advances of humanity come from - not dogmatic authoritarian **mandated Few Same Things**. Tribal groupthink is heavily ingrained by evolution but it is not everything - there is much more to life than tribalism.

This ability of having non binary certainty of **Same/Different discussions and explorations** - takes us away from habitually tribalism and groupthink.

Oh, she is a Women therefore she is one of “us” (and a **designated victim**)

Oh, he has Black skin therefore he is one of “us”

Oh, he has White skin so he is one of “them” (and a designated perpetrator)

The Apple Joke

I am going to tell you joke and you will remember it. It might make you laugh but if you have read this paper and understood what I have written - you will remember it.

Here is the Joke - which is mine and as far as I know original.

Question: **What is the Difference between an Apple and a Rock carved to look like an Apple?**

Answer: **The Taste.**

It might not be obvious what is going on here so I will explain.

Question - People like questions so they can search their own brain and demonstrate how clever they are to other people in the group. I was put in the back of the class in primary school because I kept wanting to answer the questions so I kept putting my hand up. I thought that is what you were supposed to do - answer the question. I felt smug when I got it right.

Questions help people think and this changes the mind's focus from whatever they may be concentrating on. Maybe they are depressed or stuck in a "funk". People like harmless and mild distractions - especially in an audience watching someone else do all the work. Fat, Dumb and Lazy - but entertained. i.e. doing the minimal amount of work to keep their brain happy.

Infinity - There are an infinity of things that we can explore in things. First the definition of what is an Apple and What is a Rock and then what are the infinity of things which are same and different between the two things. This is using different parts of our brain and giving our brain some exercise - keeping it healthy and checking on skills, memory and ideas.

The English are good at this - they have a history and culture of understanding infinity and investigating nuanced difference between things. The English continue to explore nuance, imagination, absurdity and infinity of things. Understanding difference and infinity is a cultural trait of the English and western societies in general although USA tends to rather different styles of jokes which I don't find as absurdly funny. Maybe it's the puritan background and lack of ireligiosity.

Absurdity - John Cleese explained this at Canberra Theatre not long ago about how jokes work and what makes a good joke. The English - especially people like The Goons, Spike Milligan, David Frost, Rowan Atkinson and Monty Python team - have an excellent grasp on the absurd and the funny side of absurdity.

There are infinitely many things which could be set up as the answer which would point to some other idea some absurd notion. E.g. The Cider, picking a rock from a tree is much more difficult, it is more difficult to polish a rock apple. The better you are at the absurdity - the more new connections in the brain people have to explore to discover the joke. Understanding the difference between a rewarding absurdity and randomly silly is something few comedians really understand.

Imagination - The Absurdity in the Joke is suggested and not stated outright. Your brain has to do the work to make the absurd connection. This allows you to learn something new or re-discover a less used connection in your thinking which opens up your mind. This development of mind is an evolutionary benefit and hence has some reward feedback mechanisms. To the extent that many people are highly motivated to learn all the time - especially young children. They want to learn.

In this specific Joke - some people end up imagining a person eating an apple and a person eating a rock which looks like an apple. This sparks a response in us that makes us laugh.

Memory - We will remember times we have seen someone mistake an Apple. They have eaten a Plastic Apple or a Wax apple. We had made the same abstract mistake - going to the wrong toilet, eating a wax banana, mistaking some place or time - getting confused, not thinking properly, Not noticing, failing to notice what is going on.

So it brings back memories and reminds us of the past of stupid things we have done in the past. This helps re-enforce the idea of being careful not to repeat the same mistakes or do silly things. We like strengthening our memory on the things that need to be remembered the things we may have lost sight of or forgotten but need to be reminded of again. Bede's Lament.

Evolutionary Mistakes - The laugh is the discovered connection and the image that this brings forward. There two drivers for this - the first big driver is the one of self discovery - you discovered

the meaning of the joke. This is an achievement which makes you feel good - you like discovering things. This is related to the anticipation of the sequence of events in mysteries and dramas - something new arises to be discovered. What will happen next - can I predict? What is the punch line going to be? Magic, Illusions, Circuses - all have this feature. Will Evel Knievel survive the jump? https://en.wikipedia.org/wiki/Evel_Knievel Will the rocket land safely on the Moon?

Second is recognizing stupid and wrong evolutionary choices. The idea of trying to eat a Rock that looks like an Apple is the stupid mistake and we can imagine the pain, broken teeth and possible embarrassment of the moment. This brings forth a highly emotional response and reaction in many people which helps them remember the event. The memory of the Joke is reinforced by the emotional responses which accompany it and those responses are happening all within the brain and not in reality. It is being imagined and responded to even with quite strong emotions.

Learning and Laughing- We learn things from good jokes and sayings - they promote development and thought and we like to develop. Laughing is an individual thing not a Mob response - people laugh at different things and make jokes about different things. At the end of a performance in Canberra the comedian recited all the politically incorrect jokes in a long sequence allowing no time for people to react. This was like a constant stream of laughter and amusement with little time to take in or remember each joke.

There are many other joke answers - The rock apple tasted better than the other tribe's. Double meaning of "Taste" as in art or eating The Rock apple lasted longer in the gallery. The Rock Apple had a good beat to it (Rock Music), Topic of the Day, Etc.

You should not censor jokes, or questions or ideas because all of it feeds into the discussion, learning and debate. No-one is physically hurt by a Joke - it all happens in the Mind. The crime of "Offense" 18C needs to be revoked. But you wait until the Greens and Muslims take over the senate there will be even more Offence and Truth Laws and Blasphemy.

Religious fanatics never could take a joke - they are too fucking stupid to understand any.

A world renowned prophet walked into his own suicide bomb - He said as he exploded "I knew that was going to happen" it was God's will.

You better work out which side of freedom you are on. The Fucking Ottoman Empire and Muslims were kept out of Europe at great human cost over many centuries. And now you let them in to enslave the women and terrorize society - fucking stupid cunts.

Besides the law of nations relating to all societies, there is a polity, or civil constitution, for each, particularly considered. No society can subsist without a form of government. "The united strength of individuals," as Gravina well observes, "constitutes what we call the body politic."

36. <https://www.voltaire.ox.ac.uk/about-voltaires-writings/> It has been estimated that, in a career which stretched over sixty years, Voltaire's extant writings ran to some fifteen million words and covered just about every topic and genre conceivable in his day. Everything concerning the œuvre seems larger than life, and it is hard to make any simple assessment of it. 'Complete' editions appeared in Voltaire's lifetime; the last, published in Geneva in 1775, ran to forty volumes. The first complete edition of Voltaire's writings after his death, known as the Kehl edition, was published on the eve of the Revolution (1784-1789) in seventy volumes. Our edition – which comprises 205 volumes – is the standard edition of reference today.

The English have doubtless purchas'd their Liberties at a very high price, and waded thro' seas of blood to drown the **Idol of arbitrary Power**. Other nations have been involv'd in as great calamities, and have shed as much blood , but then the blood they spilt in defence of their Liberties, **only enslaved them the more**. That which rises to a Revolution in England is no more than a Sedition in other countries. A city in Spain, in Barbary or in T'urkey takes up arms in defence of its Privileges, when immediately 'tis storm'd by mercenary Troops, 'tis punish'd by Executioners, and the rest of the Nation **kiss the chains they are loaded with**. The French are of opinion, that the government of this Island is more tempesiuous than the sea which surrounds it, which**

indeed is true ; but then 'tis never so but when the King raises the storm ; when he attempts to seize the Ship of which he is **only the chief Pilot**. The civil wars of France lasted longer ; were more cruel, and productive of greater evils than those of 'England : But none of these civil Wars **had a wife and prudent Liberty** for their object.

<https://www.gutenberg.org/files/2445/2445-h/2445-h.htm> The Lord Bacon was not yet acquainted with Nature, but then he knew, and pointed out, the several paths that lead to it. He had despised in his younger years the thing called philosophy in the Universities, and did all that lay in his power to prevent those societies of men instituted to improve human reason from depraving it by their quiddities, their horrors of the vacuum, their substantial forms, and all those impertinent terms which not only ignorance had rendered venerable, but which had been made sacred by their being ridiculously blended with religion..... I am a body, and, I think, that's all I know of the matter. Shall I ascribe to an unknown cause, what I can so easily impute to the only second cause I am acquainted with? Here all the school philosophers interrupt me with their arguments, and declare that there is only extension and solidity in bodies, and that there they can have nothing but motion and figure. Now motion, figure, extension and solidity cannot form a thought, and consequently the soul cannot be matter. All this so often repeated mighty series of reasoning, amounts to no more than this: I am absolutely ignorant what matter is; I guess, but imperfectly, some properties of it; now I absolutely cannot tell whether these properties may be joined to thought. As I therefore know nothing, I maintain positively that matter cannot think. In this manner do the schools reason. Mr. Locke addressed these gentlemen in the candid, sincere manner following: At least confess yourselves to be as ignorant as I. Neither your imaginations nor mine are able to comprehend in what manner a body is susceptible of ideas; and do you conceive better in what manner a substance, of what kind soever, is susceptible of them? As you cannot comprehend either matter or spirit, why will you presume to assert anything? ... **DESCARTES** He left France purely to go in search of truth, which was then persecuted by the wretched philosophy of the schools. However, he found that reason was as much disguised and depraved in the universities of Holland, into which he withdrew, as in his own country. For at the time that the French condemned the only propositions of his philosophy which were true, he was persecuted by the pretended philosophers of Holland, who understood him no better; and who, having a nearer view of his glory, hated his person the more, so that he was obliged to leave Utrecht. Descartes was injuriously accused of being an atheist, the last refuge of religious scandal: and he who had employed all the sagacity and penetration of his genius, in searching for new proofs of the existence of a God, was suspected to believe there was no such Being. Such a persecution from all sides, must necessarily suppose a most exalted merit as well as a very distinguished reputation, and indeed he possessed both. Reason at that time darted a ray upon the world through the gloom of the schools, and the prejudices of popular superstition. At last his name spread so universally, that the French were desirous of bringing him back into his native country by rewards, and accordingly offered him an annual pension of a thousand crowns. Upon these hopes Descartes returned to France; paid the fees of his patent, which was sold at that time, but no pension was settled upon him. Thus disappointed, he returned to his solitude in North Holland, where he again pursued the study of philosophy, whilst the great Galileo, at fourscore years of age, was groaning in the prisons of the Inquisition, only for having demonstrated the earth's motion..... This so bold edifice is even founded on simple ideas. The business is to measure

the diagonal of a square, to give the area of a curve, to find the square root of a number, which has none in common arithmetic. After all, the imagination ought not to be startled any more at so many orders of infinites than at the so well-known proposition, viz., that **curve lines may always be made to pass between a circle and a tangent; or at that other, namely, that matter is divisible in infinitum.** These two truths have been demonstrated many years, and are no less incomprehensible than the things we have been speaking of.

41. <https://www.gutenberg.org/files/40846/40846-h/40846-h.htm> Let us remember that Voltairism was primarily and directly altogether an **intellectual movement**, for this reason, that it was primarily and directly a reaction against the **subordination of the intellectual to the moral side of men**, carried to an excess that was at length fraught with fatal mischief. Are our opinions true, provably answering to the facts of the case, consistent with one another; is our intelligence radiant with genuine light and knowledge; and are we bent more than all else on testing and improving and diffusing this knowledge and the instruments for acquiring it? The system to which this was the powerful counter-formula, even in its least dark shapes, always reserved a large class of most important facts from **the searching glare of that scrutiny which Voltairism taught** men to direct upon every proposition that was presented to them.
