## Preamble

The vicious world wide-tribalism we see now is not new. Tribal binary extremists have always been around and tribalism and groupthink is deeply embedded both in an evolutionary sense and a cultural sense. In this document I explain (again) clearly how to avoid binary thinking.

What western civilizations have done over hundreds of years is to dampen down the constant tribalism - encouraging vigorous debate and not war - the rule of law and due process instead of **gods and mobs**. Poetry, Drama, Satire, Art, writing, arguments, debates -

**A War of ideas and creativity.** The new war cry was:

*I am far more intelligent, witty, erudite, educated, artistic, talented, creative, explorative, courageous, engaging, encouraging and humble than any of you weak minded religious zealots and binary extremists will ever be! How dare you tribal mobs attack me - what weak minded scum you are! Let us see what you are capable of writing and deducing about the world!*

<https://www.gutenberg.org/cache/epub/30186/pg30186-images.html>

*During the eighteenth century a remarkable change swept over Europe. The dominant spirit of the time ceased to be artistic as in the Renaissance, or religious as in the Reformation, or military as during the savage civil wars that had followed. The **central figure of the world** was no longer a king, nor a priest, nor a general. Instead, the man on whom all eyes were fixed, who towered above his fellows, was a **mere author**, possessed of no claim to notice but his pen. This was the age of the **arisen intellect**.*

The late 1600s and early 1700 in England and France represent an important time of vigorous debate for humanity. We have the records of the people and debates available to try to explore and understand ourselves from that time *what it was all about* (Alfie).

See **Creeping Tyrannical Totalitarianism – The Destruction of the Individual**

<https://humanistman.com/wp-content/uploads/2022/12/Creeping-Tyrannical-Totalitarianism-The-Destruction-of-the-Individual.pdf> **Overcoming Tribalism – an Idea of the West**

<https://humanistman.com/wp-content/uploads/2024/02/Overcoming-Tribalism-an-Idea-of-the-West.pdf>

The smug outrage we see in children - the hatred of men the hatred of white men - has been stoked by pig-ignorant women and weak minded men for decades now in the west. This is that same hatred that muslims have for the Jews, Chinese for the west and Russia for the west.

Tribal Blacks in Australia hate Australians - that's why Linda Burney told everyone to go. That's why blacks in Australia are at constant war, act like tribes, commit crimes, scream and yell at people and do everything they can to destroy society. Women, Blacks, Greens/Labour types and weak minded virtue signaling men all encourage this violence and tribalism - not only for their "feelings" by also the **huge corruption industry** and nepotism funded by the Australian taxpayer.

Violence, rage, abuse, criminality and tribal mobs are on the rise around the world - it is not a climate emergency - it's a culture emergency.

The ABC, courts, schools, universities, libraries and all public institutions have been taken over by dim-witted tribal binary types determined to destroy as much of the ideas of the west as they can while taking as much money from the government as they can.

Penny Wong, Katy Gallagher, Jim Chalmers, Bill Shorten, Andrew Leigh, Andrew Barr, Mark Dreyfuss, Tony Burke, Tanya Plibersek, Claire O'Neill, Anthony Albanese, Chris Bowen, Matt Keen, Ed Husic, Anne Ely, Richard Marles, etc - all up to their necks in corruption, nepotism, lies and total self-interest - destroying as much as they can along the way. Idiot girl and boy staffers chortle and sneer their way along helping to manufacture the next series of political attacks and demonization and disunity on people of the country. **Constant smug glee filled gaslighting.**

Andrew Leigh sent me a selected list of his government's achievements but he failed to show all of them. This is the typical way of lying - emphasis and omission. See all my previous articles and the **Focus Model**. Andrew Leigh loves Women and Blacks and causes for women and blacks - he told me this when I dared to question him at a town hall meeting about how men are treated in courts and how allegations can be made against a man, orders made ex-parte - and the man not even be aware of anything happening until after the orders have been made by the magistrate. Andrew (tribal, bigot, binary, corrupt - self-interest, virtue signaling - see my corruption models) is proud of his love for women and black causes like rest of the Greens/Labour politicians - it is his **proud personal virtue** that he sees them as the **most disadvantaged** as groups and it is central to his cause to help disadvantaged groups - women and blacks. <https://www.andrewleigh.com/andrew> *When we cannot help someone, we should tell them honestly, and use that time to help others; particularly the most disadvantaged.*

This is a common idea amongst hysterical women, blacks (tribal - groupthink), binary extremists (muslims, greens activists, etc) and weak minded men "Heroic" - **the drama triangle** (see my articles). Most women are tribal and **driven by habitual groupthink** and use the **entitled victim narrative** - including people in the Liberal party like Jane Hume "*We need more women in parliament*" and Peta Credlin "*I believe in targets for women - not quotas*" - believe in supporting women's causes constantly. The greens too are dominated by radical tribal and binary agendas and believe in things like "Robin Hood" taxes - steal from the rich or multiple house owners providing rental homes or farmers and give to the poor in radical, aggressive and tribal ways.

Penny Wong and Katy Gallagher say "**So - you are the biggest victim here**" - it is very important (Heroic smug virtue - drama triangle) for Greens/Labour to constantly declare who the victim is (Women, Blacks, Muslims, illegal immigrants - not Jews or white men)

Some of the current government's achievements over the last few years.

- Encouraging and rewarding a huge campaign against men and the previous government based on a private matter in one of the ministers offices involving two people acting inappropriately after hours when no politician was present or involved. Then publicly abusing the minister of the staffers involved and her staff after the event in a coordinated and timed way to gain women votes in the election. Katy Gallagher and Penny Wong say "No-one knew anything" "How dare you!" and Kimberly Kiching dies from stress and related issues after the event. Multiple expensive court cases are ongoing - many of them taxpayer funded.

- A Minister for the Republic
- A taxpayer funded Ambassador for Women
- A taxpayer funded Ambassador for Blacks
- Multiple - ALL OF THEM - nepotistic appointments to highly paid government roles (No independent appointments, open and accountable process or public discourse - secrets, favours, corruption, nepotism)
- Despite the ABC running a constant black and climate alarmism agenda the government uses taxpayer funds to fund Matt Keen as a full time climate change propagandist to convince everyone how good the government's plans are and how bad anyone else's ideas are.
- Removing Temporary Protection visas and rampant influx of illegal aliens (criminals) - people overstaying the education and other visas as well as boat arrivals.
- Releasing immigrant criminals into the community
- Running down coastal surveillance operations
- Overturn a court case allowing a Biloela illegal immigrant family which was to be removed from Australia as illegal immigrants for not satisfying the law or the courts with their case for asylum <https://www.bbc.com/news/world-australia-62431332> as personal virtue signal for Anthony Albanese and a huge public sign to other illegal immigrants around the world
- Running down defense and publicly demonizing defense staff, removing medals and failing to properly investigate allegations against officers or officers who have been attacked by their own generals or the ABC <https://www.abc.net.au/news/2023-10-16/nsw-heston-russell-damages-defamation-case-abc/102980564> providing no support for men in general and continuing to demonize men and boys in schools, universities and defense forces
- Sowing community discord and tribal groupings - encouraging muslim "protestors" - ruining the reputation of Australia in the International Community except for *Pretty Boy* Albo who is great friends with China (take the knee pretty boy - and while you are there...)
- Negotiating in secret with China to release a women from China but not the man they were also holding as a hostage - Penny Wong.
- Withdrawing the world trade agreement case against China (Kowtowing and ignoring the rule of law) and therefore encouraging them to do it again.
- Fund Chinese trade and Chinese made electric cars, wind towers and other "climate change" industries using taxpayer funded subsidies and taxpayer funds.
- Allowing protestors (Greens/Muslims) - criminals - to attack, demean, threaten and intimidate Jews and others - burn flags in Sydney, march in the streets, tear down statues, block offices and buildings, stop businesses, block roads, take over universities, etc - with no consequences for their actions (very much like the tribal mob behaviour observed in Rome as the roman empire collapsed)
- Taxpayer Funding and emergency victim visas for Muslims
- Taxpayer funding for Lebanese muslim dual nationals who choose to live in Lebanon for much of time while maintaining access to Australian taxpayer funded support - medicare, hospitals. Pensions, aged care benefits, etc.
- Taxpayer Funding for terrorists in Gaza through United Nations bodies
- Taxpayer Funding for Reparations for Blacks and Treaties with Blacks
- Taxpayer funding for overseas international "climate victims" and "United" Nations rorts and schemes

- Voting in the United Nations to reward terrorists and terrorism with a “Palestinian State” for base domestic political bribery and gain
- Jobs and positions for Labour party hacks with Taxpayer funded salaries and travel rorts - Stephen Smith, Kevin Rudd, etc
- Constitutions for blacks -millions of dollars of taxpayer funds on advertising and travel for blacks and their supporters.
- Parliaments for blacks across the country
- Flags for Blacks - taxpayer funded
- Truth Commissions for Blacks - taxpayer funded
- Treaties for Blacks <https://www.noongar.org.au/about-settlement-agreement>
- Taxpayer funded TV and media stations for Blacks
- 5 times more taxpayer funding for women than men’s health despite the statistics based on need <https://www.abs.gov.au/statistics/health/causes-death/causes-death-australia/latest-release> *The median age at death was 82.0 years (79.6 for males, 84.6 for females).*
- Huge increase in taxpayer expenditure on virtue signaling exercises to selected victim groups (e.g. women, women, women and blacks)
- Increased the salaries of women - nurses and child care works - as requested by Sally McManus - Lesbian woman in charge of the Unions - which is associated with criminal activity and bikie gangs
- Taxpayer funded Subsidizing child-care for women (after raising their salaries for Sally)
- Accepting large amounts of donations from organizations associated with criminal activity Unions (Run by Sally McManus) and others
- Police, construction industry workers and other male dominated industries striking and seeking pay rises of equivalent or higher to those given to women groups
- Taxpayer funding and ministerial grants to failed business involved in “climate change” agenda and obsessions of Chris Bowen
- Approving vast changes to land across Australia - including prime farming land and pristine native forests - to build wind towers and electricity lines for Chris Bowen’s delusional climate change agenda
- Taxpayer funding TAFE education
- Taxpayer funded Fee relief for University graduates
- Taxpayer funding for women scientists instead of men scientists because the merit system needs to be overturned to favour women disproportionately to their talent, expertise, capabilities or even interest in science. Katy Gallagher says “I will fix that” to the joy of women everywhere - increased grants and funding for women and blacks in STEM work and university education
- Taxpayer funded involvement for IVF funding for women who want to have babies but cannot naturally (single female parents, female prisoners, lesbians, etc) - demonization of fathers “*it is my body - my baby - women and their children need to be kept safe from fathers*” [https://www.wel.org.au/wcsp\\_proposal](https://www.wel.org.au/wcsp_proposal)
- Encouragement of Children to change sex - taking hard drugs and undergoing gender changing surgery - without parent’s knowledge or rights to intervene. Government support

and endorsement of sex changes. Criminalizing parents and asserting the right of the State control over children instead of parents.

- Constant daily invasions of privacy - cameras, face recognition, tracing and tracking, “keeping people safe” - by stealing all their “privacy” , mobile phone taps, internet logs, email logs - all systems now fully invasive MyGov, My health, etc - constant data matching by idiot (promoted based on their gender) tribal women and weak minded men heading up government departments
- Encouraging highly sexualized Trans activists to have access to children, taxpayer funds and publicity - in Libraries, Schools, Dan Andrews parliament and the Embassy in USA under Kevin Rudd
- Promoting a Census question asking people what their sexual preferences are - do they like fucking hamsters or do they prefer lesbians and trans?
- Taxpayer funding and support services (Governments and Charities - Tax Deductable) for Greens Activists and Blacks involved in court cases (Lawyers - grifting scum)
- Increasing costs for leave entitlements, superannuation, taxes, red-tape, lawfare for all business - from small, medium to large enterprises.
- Rampant Diversity, Equity, Inclusion, Black Reconciliation activism at all levels of government and entrenched in policies, procedures, law, staff (appointments), staff training, financing and all aspects - take the knee, welcome to country, abuse of white boys at schools and universities - all encouraged and pushed by all levels of government, media “kill all men” (ABC slogan) , universities, schools, courts, police - promoting of anti male language “Toxic Masculinity” and groupthink
- Legalizing and decriminalization of hard drugs in Canberra - Andrew Barr
- Declaring animals to be sentient (Andrew Barr) is Andrew sentient?
- Mandating intrusive legislation into free speech and public discourse - appointing highly paid idiot tribal feminists to control free speech and enter into expensive taxpayer funded court cases (legal grifting scum)
- A taxpayer funded Office for Women attached at high levels to government - Human Rights for women and Blacks and legalized and mandated discrimination against men in the Discrimination Act and education programs “Keeping women and their children safe” “RESPECT (for women)” <https://ministers.pmc.gov.au/gallagher/2024/working-keep-women-safe> Funding in this Budget brings the Labor Government’s total investment to over **\$3.4 billion** to support women’s safety and the National Plan to End Violence Against Women and Children 2022-2032. An obvious tribal groupthink victim narrative - Despite statistics or facts - e.g. men being the greatest victims of all forms of violence
- Including ANROWS and other women’s groups in writing preambles to legislation (“domestic violence”) and ignoring men’s groups and men’s groups submissions in family law.
- Huge taxpayer funding for feminist green activism including bias and corrupt organization like “relationships” Australia and many others.
- Introducing Coercive control and other laws to attack men in family courts and other legal matters - removing the presumption of equal and shared care - the criminalization of men - the lack of consequences for women who lie. Removal of Perjury laws and even the threat of them.

- A removal of the **presumption of innocence** for men and increased protections for women for lying, making false allegations or being cross examined in family law and other cases. An accused person is not allowed to directly cross examine their accuser. (Legal scum, grifters, lawyers)
- Making , findings and orders against men ex-parte and unilaterally criminalizing men without trial and allowing women who make false allegations to be rewarded with money, support and wins in family law and all courts.
- Demonizing men and boys constantly in schools, media, government and courts.
- Classifying “violence” in law to mean anything a woman declares it to be based on their level of fear, hysteria and delusion - their “feelings” rather than facts. 18c. Using Police and court orders to threaten, demonize, attack and bankrupt men on behalf of women.
- A removal of the **presumption of shared care** in family law - instead demonizing men even further so they do not get custody. Increasing the costs of family law - providing financial aid and support to women who claim victim status
- Taxpayer Victim funding allocated by women for women who declare themselves victims
- ABC out of control - too much money - too many court cases and too much activism for the entitled victim narrative (women and blacks)
- Mark Dreyfuss secretly giving large amounts of taxpayer money and jobs to women (with Julia Gillard and others - widespread nepotism) to make allegations of being the victim - without due process or public scrutiny
- Rampant and rapidly increasing debt and budget measures deliberately hiding costs and expenditure - buying votes in Australia and overseas by splashing taxpayer funds on self promotion, corruption and ill-conceived virtue signaling.
- Claiming openness and transparency while hiding information in budgets, having secret agreements, commercial in confidence, agreements with unions, etc - constantly failing to tell the truth or be open and accountable, distraction, avoiding public scrutiny or debate while ramming through legislation based on secret deals with politicians. Reducing time for public comment or debate legislation changes.
- Losing control of the budget - cost of living increases - rampant immigration - housing crises
- Jim Chalmers wanting to change budget process and measures to be measured and reported on by General **Happiness Indicators** rather than costs
- Raising taxes to historic high levels and seeking to grab superannuation funds and other funds - inheritance taxes and other taxes suggested by the Greens in exchange for Greens/labour holding on to power.
- Imposing new laws, costs and mandates on small businesses to maintain a socialist agenda and victim narrative of workers e.g. the “right of people to work from home”
- Encouraging criminal unions and accepting donations from criminal unions for rampant corruption and increased costs in all union controlled sectors
- Cost of housing and CPI increases - high inflation and drop in standard of living
- Destabilization of the power grid and associated system with destruction of farms, native habitats and demonization of Coal, Gas and other energy sources.
- Lies and constant corruption and ad hominem personal attacks on those who dare to question coordinated in parliament and with the support of the ABC (tribal - women and Black agendas)

- National Anti Corruption Commission will become like the Discrimination Act (How to discriminate against men) or “Truth Telling” commissions (how to lie and tell black truths) - i.e. if the anti corruption commission refuses to investigate me - I am - THEREFORE NOT CORRUPT. (Orwellian)
- Behaving like children in parliament - sneering laughing, chortling, playing games, calling people names “Voidermort” , constant personal attack and vilification instead of authentic debate, lying constantly to parliament and the people, and bringing the entire parliament into disrepute - acting like spoilt, pampered two year tyrannical psychopaths - egged on by idiot women , blacks and muslims
- Ignoring me and others like me on any debate on any issue
- .....

The political scum class which inhabits Australia is very pig-ignorant and cognitively challenged - it compensates for this with smug tribal abuse and virtue signaling. Most of them are **Bad Actors** - they **know exactly how corrupt they are** and what bastardry they engaged with but some of them delude themselves into thinking “*the ends justifies the means*”, “*at least I am not the devil incarnate*” and “*we are all just as bad as each other*” (Joe Hildebrand, Richo and the rest) or **selfishly** (smug virtue) “*I am giving lots of taxpayer funds to women and blacks - so I am a good person doing good for the ones most in need*”

Or as that criminal tyrant Robert Walpole [https://en.wikipedia.org/wiki/Robert\\_Walpole](https://en.wikipedia.org/wiki/Robert_Walpole) got people to write - “**corruption is the universal human condition**” “*political divisiveness was also universal and inevitable because of selfish passions that were integral to human nature*” and **therefore** Walpole was a normal and wonderful human being. There more selfish and corrupt he was - the more “**humanity**” he displayed. This is the same idiotology of Andrew Leigh, Andrew Barr and the rest of the Greens/labour elites - all the time they profit from their corruption - they gaslight you with this bullshit. The women declare themselves “victim” and the men declare themselves “hero” (on the “right side of history”) while all the time **you are the declared perpetrator** they are doing everything to destroy.

**What criminal abusive scum these people are.**

## Introduction

1700s - the age of debates and arguments. So many people trying to explain and argue their ideas about everything. Government, religion, balance of powers, constitution, morals, ethics, free speech, freedoms, belief - everything was open to debate. Such a relief after generation of religious zealotry, violence and repression - but it was not over. It is never “over”.

The debates continued in many forms. The popular theatre was a way of entertaining people, making them laugh and poking fun at the elites and their behaviour - everyone knew who was being mocked even if their names were never mentioned.

## A Politician’s Apology

Binaries will not see anything wrong with this apology - they lack cognition.

*I am a good person on the right side of history. I will always do good for the people who I love with such a passion. I love the people. I love women, I love blacks, I love muslims, I love Chinese (not the food - the people).*

*If I made mistakes it was only because I was in the pursuit of good.*

*I strive on behalf of the "City of God" [https://en.wikipedia.org/wiki/The\\_City\\_of\\_God](https://en.wikipedia.org/wiki/The_City_of_God) not base pagan sins.*

*Stand up any of you who thinks they could have done better than I - when I have been full of such popular support and goodness. Not only from lemmings but many distinguished celebrities, actors, musicians and business leaders.*

*We are much better off than we would have been if any other person was in charge of things - of that you can be sure. There is no end of evil people who I personally have protected you from.*

*If I gained out of this process it was due to my hard work and determination to work for the people. With great work comes a decent recompense for my earnest and sincere involvement. If you pay peanuts then you will get monkeys - and we are not monkeys are we? (ha, ha)*

*Those critics who comment of what I have done do so for base political means - let he who is without sin cast the first stone. I am not perfect and neither are my critics so we are both the same.*

*It was difficult enough for me as a proud black women to get elected by all the misogynists, racists and other haters out there - I have done amazingly well considering all the pressures and challenges I especially had to face in the world. It was a miracle I was elected. I believe in miracles. I can now do god's certain work.*

## **Arguing with everyone - all the time - lifetimes of arguments**

*A politician says - I am too busy Not to be stupid. I need to do something, yesterday, before people find out how stupid I am.*

The joy of books is that I get to engage in all the arguments, debates and ideas of all the people who came before me. I have to bring their ideas forwards and then compare my ideas against theirs.

I get more idea of what people were thinking when they wrote things if I understand the history of events and things happening in their time.

History usually follows a sequence where one thing leads to another - for example tit-for-tat wars and revenge.

## **The Time Dimension in Literature**

Past present future

- Positioning the author
- Positioning the reader and audience
- Positioning the narrative

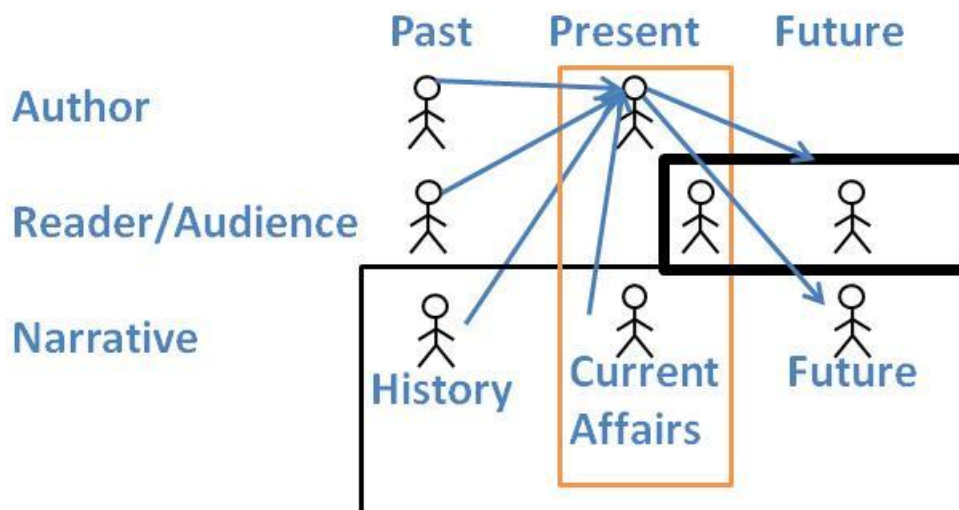

I tend to write in a very direct immediate way. As I write to you now I am not trying to write as a historical figure - even if you read this long after I am dead - I am writing in the immediate now to an immediate reader a narrative about the events of my time and events i have bought forward from the past.

But let as try to explore what other possibilities might be. The 1600s to 1700s many people we experimenting with different ways to communicate in poems, dramas, theatre, songs, etc.

Jonathan Swift uses satire - includes stories of real people and stories of imaginary people, places and events. A imaginary history of various events with a central character encountering people, sights and adventures along the way. At the same time he can criticize and make comment on things happening around him in real life by arguing similar event in his own book as a imaginary event with imaginary people interacting and then presenting the central characters own reactions and thoughts to those imaginary events. This type of journey is very much like the 'Road Trip Narrative' - used widely by many to show one man's journey through life and his thoughts along the way.

I try to read the history of narratives, readers and authors - integrate current affairs and write for current and future readers. I can write the history, current affairs and possible future narratives at any stage of my existence.

### Augustine of Hippo - 4 States of Man

[https://en.wikipedia.org/wiki/Augustine\\_of\\_Hippo](https://en.wikipedia.org/wiki/Augustine_of_Hippo) Augustine of Hippo is a highly regarded religious writer from the early 400s who wrote about many things. He was a binary thinker who lacked any understanding of many things yet some of his work is still revered by many. It is worth spending some time putting one of his ideas through my models to see what it looks like, I was prompted to

do this when I came across **Thomas Boston** [https://en.wikipedia.org/wiki/Thomas\\_Boston](https://en.wikipedia.org/wiki/Thomas_Boston) Boston was successively schoolmaster at Glencairn, and minister of Simprin in Berwickshire, and Ettrick in Selkirkshire. In addition to his best-known work, **Human Nature in Its Fourfold State**, one of the **religious classics** of Scotland, <https://wesleyscholar.com/wp-content/uploads/2019/01/Boston-Human-Nature-Fourfold-State-1794.pdf> <https://ia902805.us.archive.org/9/items/humannatureinits00/humannatureinits00.pdf>

Words like “Grace” and “Innocence” “Happiness” appear frequently - the main thesis is that the bible is all true and Thomas’ interpretation of things makes sense to him in a binary certain way - People will feel better if they believe him. Most religious types are obsessed with ideas like “sin” and “grace” and “depravity” - rather than “crimes” they are seen as “sins” and therefore come under the **religious grifters** control. E.g. [https://en.wikipedia.org/wiki/Matthias\\_Flaciuss](https://en.wikipedia.org/wiki/Matthias_Flaciuss)

<https://www.monergism.com/thethreshold/articles/onsite/four-fold.html> In his famous book, *Human Nature in Its Fourfold State*, the Scottish Puritan, **Thomas Boston** (1676–1732) tells us that the four states of human nature are: (a) **Primitive Integrity**; (b) **Entire Depravity**; (c) **Begun Recovery**; and (d) **Consummate Happiness or Misery**.

*These four states, which are derived from the Scripture, correspond to the four states of man in relation to sin enumerated by Augustine of Hippo: (a) able to sin, able not to sin (posse peccare, posse non peccare); (b) not able not to sin (non posse non peccare); (c) able not to sin (posse non peccare); and (d) unable to sin (non posse peccare). The first state corresponds to the state of man in innocency, before the Fall; the second the state of the natural man after the Fall; the third the state of the regenerate man; and the fourth the glorified man.*

First we will look at the **plurality model** and the **four box model** technique (Fisher) with my new improved definite Not models and then look at all the combinations - to see the full array of possible states in a binary kind of way but with much more detail able to be explored. **The Pearson Method**.

See

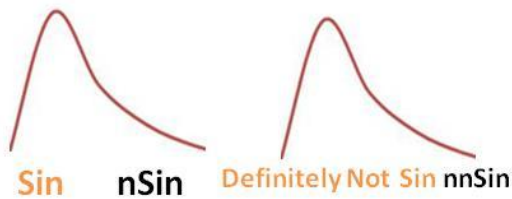

- **What Were you Thinking – 1600s – part7** <https://humanistman.com/wp-content/uploads/2024/10/What-Were-you-Thinking-1600s-part7.pdf>
- **The Definite Not** <https://humanistman.com/wp-content/uploads/2024/10/The-Definite-Not.pdf>
- **What Were you Thinking – 1700s – part1** <https://humanistman.com/wp-content/uploads/2024/11/What-Were-you-Thinking-1700s-part1.pdf>

<https://www.monergism.com/thethreshold/articles/onsite/four-fold.html>

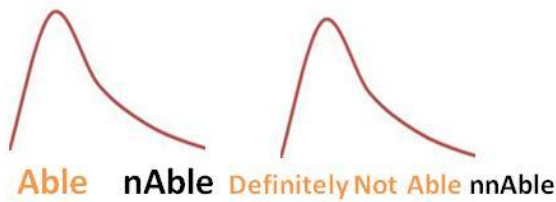

The main ideas being expressed are **Sin** and being **Able** and then their definite nots so we can immediately **frame the discussion** using these general terms without arguing the detailed definitions and measurements. We can then see that various combinations of these things are shown to represent some kind of definition of man which we can explore -

1. Pre-Fall Man
2. Post-Fall Man
3. Reborn Man

4. Glorified Man

|                              |                               |
|------------------------------|-------------------------------|
| Sin<br>Definitely<br>Not Sin | Definitely<br>Not Sin<br>nSin |
| Sin<br>nnSin                 | nSin<br>nnSin                 |

|                                |                                 |
|--------------------------------|---------------------------------|
| Able<br>Definitely<br>Not Able | Definitely<br>Not Able<br>nAble |
| Able<br>nnAble                 | nAble<br>nnAble                 |

So we can see as a frame - all the 16 possible combinations of things. We have yet to define exactly what we mean and how we measure Sin or Ability and their associated definite Notes

1. Sin, Definitely Not Sin, Able, Definitely Not Able
2. Sin, Definitely Not Sin, Able, nnAble
3. Sin, Definitely Not Sin, Definitely Not Able, nAble
4. Sin, Definitely Not Sin, nAble, nnAble
5. Sin, nnSin, Able, Definitely Not Able
6. Sin, nnSin, Able, nnAble
7. Sin, nnSin, Definitely Not Able, nAble
8. Sin, nnSin, nAble, nnAble
9. Definitely Not Sin, nSin, Able, Definitely Not Able
10. Definitely Not Sin, nSin, Able, nnAble
11. Definitely Not Sin, nSin, Definitely Not Able, nAble
12. Definitely Not Sin, nSin, nAble, nnAble
13. nSin, nnSin, Able, Definitely Not Able
14. nSin, nnSin, Able, nnAble
15. nSin, nnSin, Definitely Not Able, nAble
16. nSin, nnSin, nAble, nnAble

I can organize these combinations into a spreadsheet where we can work our way through the discussion about meanings - definition and measurement of the basic terms and then check we remain coherent and non contradictory

From my analysis I can see that only 4 out the possible 16 combinations have been considered by Augustine - but this is not unusual - most people are binary and see everything as simple pairs of things. Most people lack advanced analytical thinking and cognition tools nor are they interested in developing any. Most people are binary and tribal and rush to certainty for their beliefs. Questioning and thinking takes far more energy for the brain and most people are too fat, dumb and lazy (complacent) to be bothered.

1. Pre-Fall Man - is **Able to Sin** and **Able to Not Sin** (combinations 6,10)
2. Post-Fall Man - is **Able to Sin** and **Not Able (unable) to Not Sin** (combinations 6,11)
3. Reborn Man - is **Able to Sin** and **Able to Not Sin** (combinations 6,10) (Same as Pre-Fall Man)
4. Glorified Man - is **Able to Not Sin** and **Not Able (unable) to Sin** (combinations 10,7)

We do not need to worry about the meaning and definitions of things because we starting by simply looking at the combinations rather than trying to extract meaning along the way. This allows us to get a comprehensive and view and helps us work towards coherent definitions and meanings.

So apart from failing to see all the possible combinations there are two combinations which stand out because they are omitted and the **SHOW EXACTLY** the **binary extreme** thinking of St Augustine of Hippo.

See how combinations 8 and 12 are omitted? What do they represent - **do you think?**

Well, we can see exactly what they mean - one has a definite definition of **SIN** and the other has a definite definition of **NOT SIN** but both have **nothing about ability**.

i.e. No **definite ABLE** or **definite NOT ABLE**.

But we can see an infinity of possible things in the ability **nAble** and **nnAble** - contain two different sets of infinities which we could explore.

So according the Augustine (and most religious zealots) the idea of **Sin** and **NOT Sin** existing with having any definite ABILITY or definitely not any ABILITY - simply does not exist.

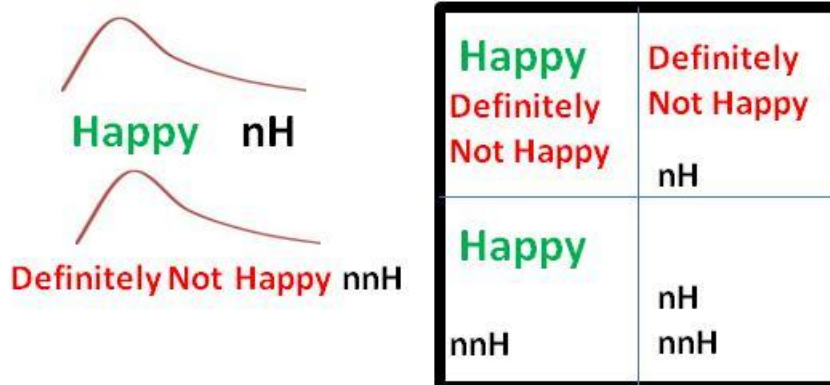

Most binary thinkers - Lawyers, Judges, religious zealots think like this - they are binary extremists who **pair most things in binary certain ways** and not only **miss the continuum of the plurality curve** - but the also miss all of the combinations. See **What Were you Thinking – 1500s – Part5**  
<https://humanistman.com/wp-content/uploads/2024/03/What-Were-you-Thinking-1500s-part5.pdf>

This can also been seen as THE **DOUBLE NOT** IDEA. (Vedas - neti, neti)

**NOT ABLE** and **NOT NOT ABLE**. **nAble** and **nnAble**.

More than 70% of people are habitually tribal and very few people can think or have any methods of thinking. Women and blacks are mainly driven by feelings - and have been educated and trained to complain and react instantly (Pavlov's dogs) about everything using the **entitled victim narrative** which is part of the binary drama triangle.

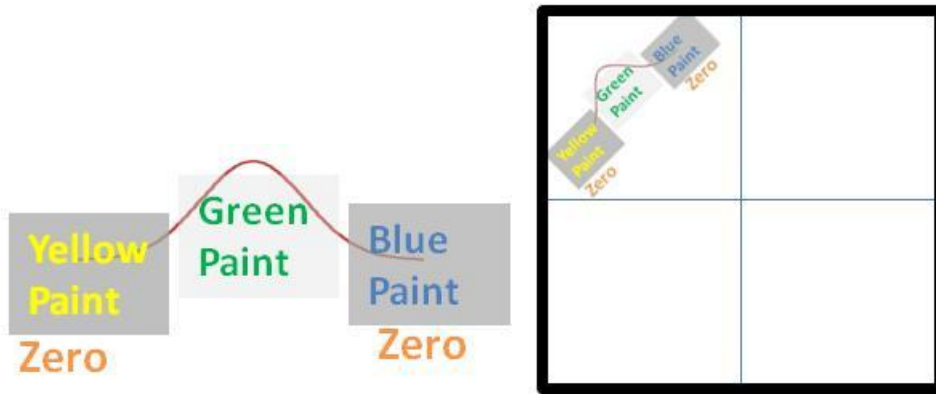

Think about the idea of Happy and Definitely Not Happy - there is something in the middle isn't there? - an infinity of ideas which fit between these two ideas. It is **not a MIXTURE** of being a bit happy and a bit Not happy - it is something else - **the double not** - neither **definitely** happy or **definitely** not happy.

You see how easy it is to understand when I explain it like that? You see the double not in the bottom right hand corner? That is what most people miss and ignore - they do not understand the 4 box model or how to frame things. I keep explaining it because if you understand it you can explain to others who are binary and stuck. It needs to be explained in very simple terms so hysterical women, blacks, weak minded men and religious binary extremists can start to engage in a more expanded discussion - only some of them will understand but it is **worth the effort** (for all of us) to get them to explore for themselves. That way, they might hesitate before they form into vicious tribal mobs.

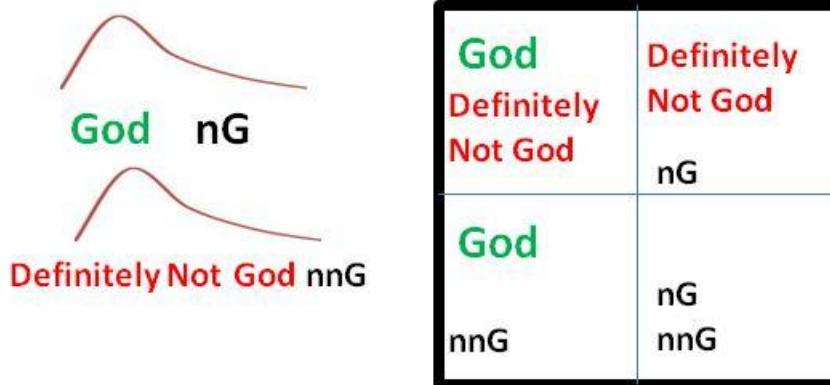

It is not like mixing two things - like paint - because what we are doing is recognizing the full context of the definitions and their associated infinities, other things to consider, explore or question.

Many people think that you start on one side of the measure with zero yellow paint and the other side of the measure with zero blue paint and then mix them up in the middle. But all this is doing is examining **one of the 4 combinations** - the top left box of the 4 where you have definitely only two things mixed together.

Many people are **narcissists** and tend to act in tyrannical ways - usually without thinking very much at all - except in their own self-interest. Many women are like this and are obsessed with feelings, emotions (fear, hysteria) and like to provoke men to be instant “Heroes” for the “victim” woman - many men are proud of their heroics. If a man is enough of a “hero” they may get sex as a reward.

Now we can help the religious zealots a little bit - even the binaries might be able to start to understand now. What might definite not god be? The Anti-Christ? The Anti-Pope? The Devil?

Most people do not see the double not. They stay concentrated on the mix of the two certain declared things - where there are elements of “God” and elements of “Definitely not God” all mixed together. They do not see or understand the 4 box model. See **An Architecture of Ideas** <https://humanistman.com/wp-content/uploads/2022/10/An-Architecture-of-Ideas.pdf> **Society is in full breakdown now** with rampant tribalism and destruction of legal, education and public services with fully corrupt tribal lying politicians stealing as much as they can get away with as society crumbles around them. They value trinkets of “sparkle” and “awards” - no value of humanity in them. No point buying a bunker is New Zealand’s south island - that’s gone even more tribal and in total disarray.

## Dropping a Clanger

We forgive people minor daily stuff-ups and mistakes in life but when adults get something seriously wrong we call it "dropping a clanger". You might be half asleep and in some kind of dream state but then you are woken up by something so confronting to your ideas that you simply must address the issue.

Try these for example 'We need a Black voice to Parliament' "So You are the victim here" (Penny Wong (tribalist binary, corrupt)

## Recent Investigations

Early 1700s literature.

Reading 4 books in hard copy (as well as many others online)

- Nigel Biggar - Colonialism - A Moral Reckoning
- Niall Ferguson - Empire - How Britain Made the Modern World
- Niall Ferguson - Doom - The Politics of Catastrophe
- Ron Powers - A Life - Mark Twain

I do not read for pure entertainment or distraction. I read critically - testing references, ideas and assumptions. It is not a competition - it is a debate.

[https://en.wikipedia.org/wiki/Bangorian\\_Controversy](https://en.wikipedia.org/wiki/Bangorian_Controversy) In it, Hickes, as Bishop of Thetford, on behalf of the minority non-juror faction that had broken away from the Church of England after the Glorious Revolution, excommunicated all but the non-juror churchmen. Benjamin Hoadly, the Bishop of Bangor, wrote a reply, *Preservative against the Principles and Practices of Non-Jurors*; his own Erastian position was sincerely proposed as the only test of truth. The controversy itself began very visibly and vocally when Hoadly delivered a sermon on 31 March 1717[which calendar?] to George I of Great Britain on *The Nature of the Kingdom of Christ*. His text was **John 18:36**, "**My kingdom is not of this world**" and from that, Hoadly deduced, supposedly at the request of the king himself, that there is **no Biblical justification for any church government of any sort**. He identified the church with the Kingdom of Heaven. **It was therefore not of this world, and Christ had not delegated His authority to any representatives.**

She had discredited half the arena of ruling Whig politicians, as well as moderate Tories like John Churchill, 1st Duke of Marlborough, who, she said, had begun his career at court in the bed of the royal mistress, Barbara Villiers. **Manley resolutely denied all correspondencies between her characters and real people**, and the charges were eventually dropped:[7] part of the difficulty of those offended was proving that she had actually told their stories, without exposing themselves to further ridicule. Manley's semi-autobiographical *Adventures of Rivella* repeated the claim that her work was entirely fictional

For they arrived as friends but behaved themselves as enemies. Instead of the necessary and honest payment they grasped their muskets and fired on them (i. e. the **Khoikhoi**). They ran their sword through everyone who was in their way. Whole kraals or Hottentot villages were pillaged, and those who could not flee had to hide themselves here and there and seek safety in the face of the cruelty of their hostile friends."

Having been trained to identify and use such constructions, a

Latin student's understanding of, and competency in, English significantly expands. Latin is a precise language ordered towards clarity of expression. The density of Latin grammatical structures gives the language a compressed brevity. Verbs are conjugated to indicate tense, mood, aspect, and voice; nouns, pronouns and adjectives are inflected to express case, number, and gender."

Previous analysis by the ABS found that there was approximately 5% excess mortality in 2023 (higher than expected mortality). This is because with an increasing and ageing population as well as continued improvements in health care and treatment, the number of deaths should be increasing over time, but there should be a corresponding decrease in the mortality rate. While the rate is lower than 2022, it is still higher than those recorded in 2020 and 2021 which are the two lowest age-standardised death rates on record.
